

QS STARS REPORT

Universitas Nasional

INTRODUCTION

Thank you for taking part in QS Stars. This is an opt-in rating system for higher education institutions, evaluating them against a range of performance indicators across several categories. The rating system is different from the QS World University Rankings, although the two can work together. QS Stars allows institutions to highlight their strengths, no matter how they perform in the rankings. Unlike rankings, QS Star ratings are entirely based upon an institution's performance, and not how they compare to their peers.

With QS Stars, an institution receives between 0 and 5+ Stars overall, as well as a rating of between 0 and 5 Stars in at least eight categories. Institutions can purchase a licence to advertise their results, receiving badges with the overall results as well as the results for each category. Results are typically valid for three years.

The objective of this report is to provide a detailed summary of your institution's results, including both the final data and points awarded for each indicator. You may use this report to highlight the institution's strengths, as well as to identify any weaknesses and areas for improvement.

FURTHER ASSISTANCE

If you need any assistance interpreting the content of this report, have any questions about our processes or source, or discover any anomalies, peculiarities or errors, please contact your assigned QS Stars analysts. Detailed feedback and suggestions for improvements are also very welcome! You can write to the assigned analyst or product manager at any time.

Audit start date 18/08/2020

Delivery date 01/03/2021

Audit validity date 01/03/2021 - 01/03/2024

During this time you may purchase a licence to advertise the QS Stars results; after this date passes the institution's results will expire, and they should be re-audited.

SPECIALIST CRITERIA

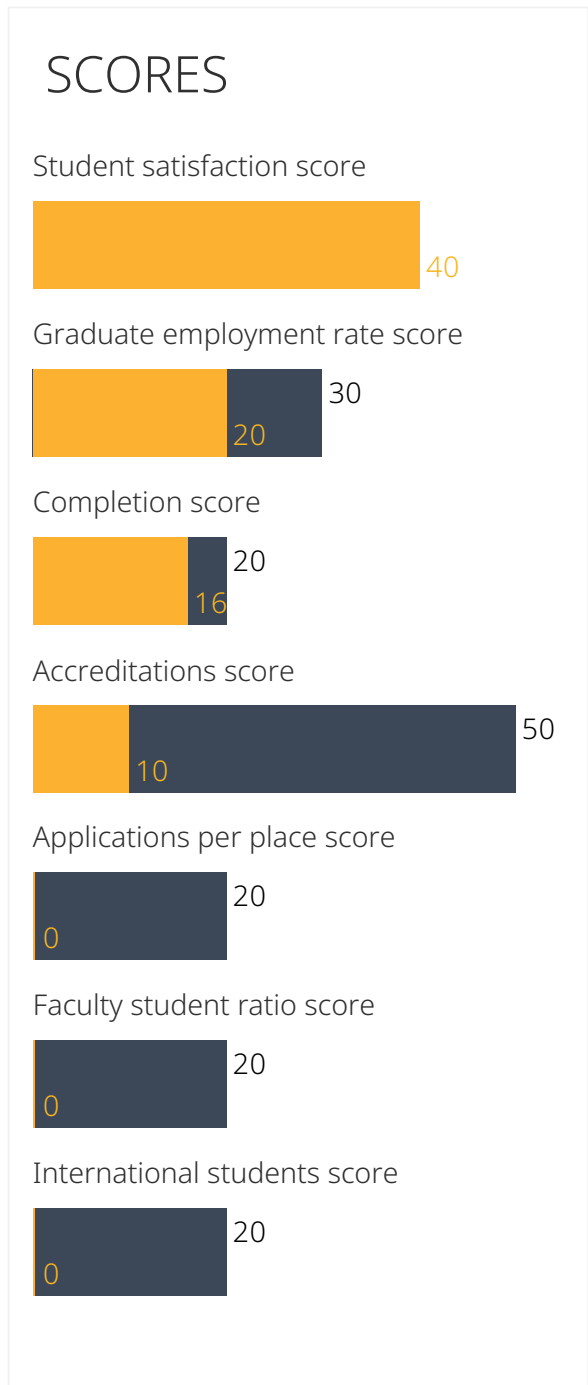

PROGRAM STRENGTH

The Program Strength category identifies an institution's specialist program, looking at the competitiveness and strength of a specific, named program chosen by the institution from the degree programs on offer.

Bachelor in Management

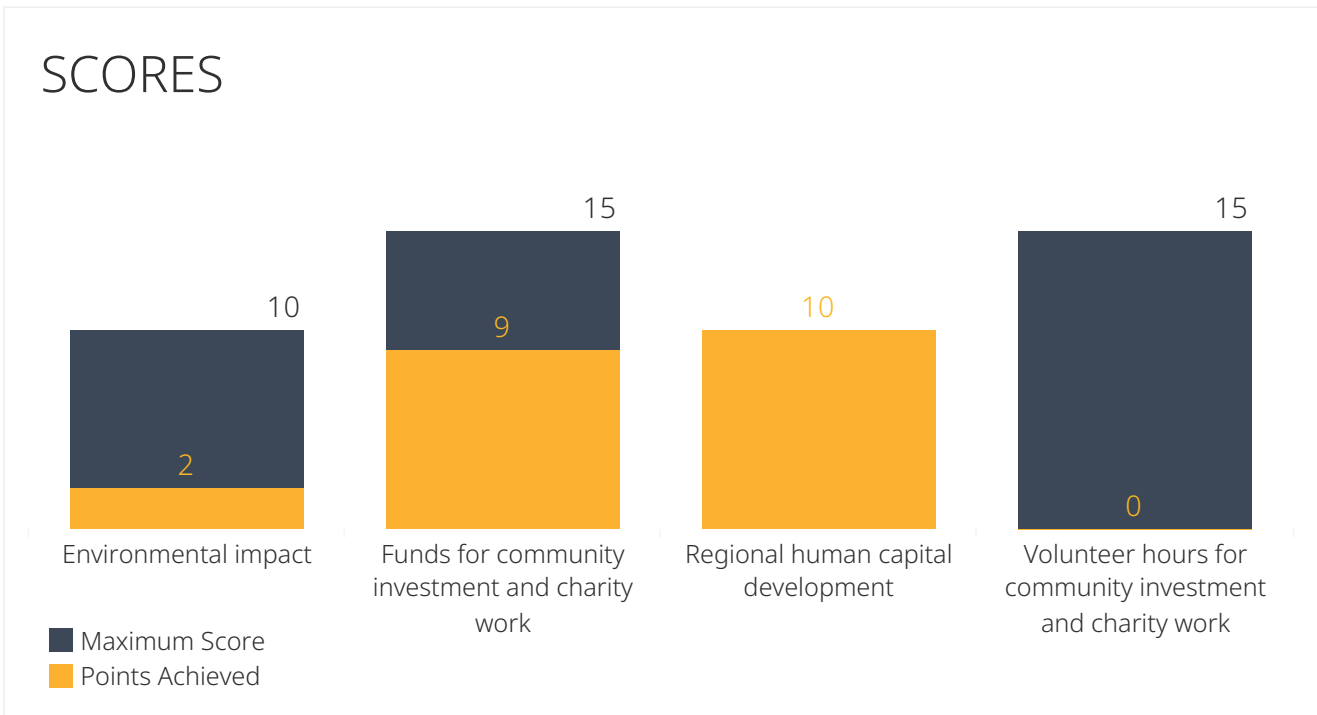

ADVANCED CRITERIA

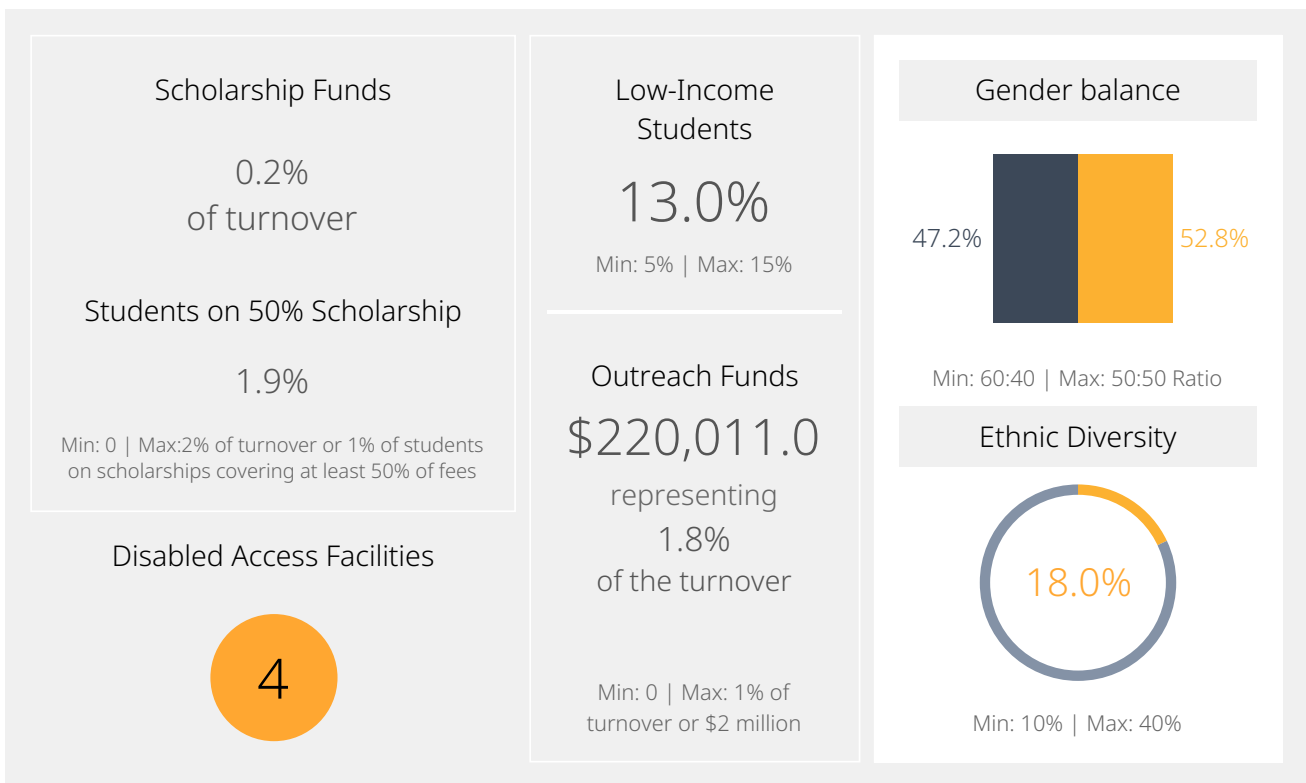

SOCIAL RESPONSIBILITY

In the majority of cases universities own a lot of property, are significant employers within their local context, and support their local, regional, and often national economies and communities. In the 21st century universities can no longer draw the line at the conventional missions of teaching and research, but also have a responsibility to embrace the “third mission” of community and regional engagement.

INCLUSIVENESS

For institutions that aspire to become truly world-class, their mission and its impact must extend beyond the basics as they strive to be inclusive of all types of students. In this category we look at areas such as the provision of access and support for a variety of disabilities, the number of students from low-income backgrounds, and the amount of funds available for student support.
